Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "quotations" free any more than a merchant can take over his customer from gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are for sale in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We Have!

Always contended for and maintain it is a fact that there is a higher order of intelligence evinced in the business of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$4.98 will buy a \$12 suit of clothes. Our many years experience goes to show that people want good goods, and for which they are willing to pay a fair price. Our 1908 spring business proves that the higher the class of goods the reader they sell. Our beautiful Black and Blue Serge Suits (we sell them at \$12) have bounded into wonderful great favor with our good dressers. We have a beautiful line of them. The weather is getting right for our

Crash Suits

Our Crash Suits are right for the weather. Prices ranging in this line

From \$2.50 to \$7

They are worth your inspection. On Saturday we will open our Children's and Boys' Crash Suits.

OUR SHOE DEPARTMENT is now complete in Summer Footwear. We handle only the best quality of goods in this line. Our Fine Patent Leather Shoes which a few days since were closed out are replenished with a shipment of the very latest and correct styles.

Special Shirtwaist Sale

To create an unusual June activity in our Shirtwaist Department we have reduced all of our \$1.25 Pique, Gingham and Madras Waists to 90c. We have sold at least 500 of these waists this season, and have only assurances of entire satisfaction from the many purchasers as to quality and fit. Remember the new price. 90c. Our stock of White Pique and Lawn Waists is particularly large and select. They are made with the delicate of embroidery or inserting, and at surprisingly low prices—\$1 to \$2.

FIFTY PIECES PIQUE

Were part of the lot we bought recently at a closing-out price. They were made to sell at 50c a yard. Our price is the closing out one, 35c a yard. Also a great stock of White Pique Gowns of regular 60c value; the price here is 35c a yard.

MANY MILES OF

RIBBONS.

We have kept the manufacturers busy supplying us with ribbons this season. To all the various pieces we've sold together and they would extend many miles; and yet today our stock is large and complete. Our special leaders are a Moire Silk Ribbon in all colors worth 50c at 35c, and a double-faced Satin Ribbon, half width, sold by others at 50c, our price 35c.

THE BARGAIN TABLE ATTRACTION!

For this week is a Scotch Lawn, worth 6 1/2c., your choice of 150 patterns at 3 1/2c. a yard.

Their acrobatic work was great. Warren and Howard in their original act, "Idiosyncrasies," made a distinct hit. Go out tonight and see the biggest and best show in town. THE BUYERS GUIDE.

The Largest Shipment of **Deering Binders**

Chat Ever Came to Northeastern Kentucky

THE DEERING is a safe line to hitch to. In buying a Self Binder one should study the matter carefully and select the best machine. Any make of binder will cut wheat; they will all do that; but there is one machine that will cut wheat, rye, oats, barley, millet, buckwheat, timothy, etc. Striding up or laying down flat, long or short, heavy or thin, on level, rolling or hilly or sloping as a roof. This machine is the Deering. Condition of grain or land makes no difference to this matchless binder. Get your money's worth and

BUY A DEERING

was received Monday, Tuesday and Wednesday, May 9th, 10th and 11th, 1898, by JOHN I. WINTER, THE PRICE FIGHTER. There was 30,000,000 (thirty million) feet in the shipment, and every foot of it is the justly famous Deering Pure Sial Twine. Every one wants, demands and will have no other twine after once using Deering Pure Sial. None of us are too old to learn. If your neighbors are using a better article than you are, surely you wish to know it. The demand for Deering Pure Sial Twine has become so great that we were compelled to this year buy 30,000,000 feet to accommodate the wants of our customers. Now, listen. Every inch of this Twine is tested at a much higher tension than any binder requires in tying, while in other makes of twine only 160 feet out of every 50,000 feet is tested. Deering Pure Sial Twine is made of extra long (first) strands of Pure Sial Fiber, which permits of very fine spinning, thus producing more bundles to the pound than any other twine in the world. To make a long story short, I offer the following: Take out a lot of Deering Pure Sial Binder Twine, try it, and if you don't find that it will bind an acre of wheat with less pounds than any other twine made, if you don't find that it is the strongest twine made, if it is not the best twine that you ever used, you will please return it and every cent of your money will be refunded. Surely, that's fair. You are to be your own judge. Say, I've saved you big money on twine. I thought I was advanced ever judge. I am willing to give my friends and customers the advantage of my judicious purchase. I am selling twine today for a pound less than the market price. In buying Binder Twine, Farm Wagons, Farm Implements, Mowers, Hay Rakes, Self Binders or Furniture it always pays to consult The Price Fighter.

Deering Machines have roller and ball bearings both, and in that respect include only the best of the kind made. It is the lightest of any now on the market. Remember, Deering made the first twine binder. Deering first used ball and roller bearings. Surely you won't buy a cheap imitation. Take a business view of the matter. Don't buy an experiment when you can take advantage of Deering's 25 years experience. They made the first Twine Binder, have spent a lifetime in improving it and today offer you the result of their labors at the same price that other companies wish to charge you for experiments. Don't buy a cheap experiment, but buy a perfected Deering Binder, Mower or Hay Rake. They have made all your neighbors happy, as nearly 1,000 testimonials that we hold of residents of Mason, Bracken and Robertson distinctly state. We will be pleased to show you these testimonials. Come and see Deering's wonderful line of prize winning machines.

An Open Confession is Good for the Soul

We oversized the situation. We are loaded with Baby Buggies. They must go, we don't intend to carry them over. When an article don't move fast enough we push it, and push it so hard that it runs away from itself. We never have any carried-over stock. Now listen: These Buggies will be sold regardless of cost. Cost cuts no figure in this case. We want a little bit of your money in exchange for these Baby Buggies, and in order to make the exchange quickly we will

GIVE YOU THE 10 PER CENT.
AND THROW IN 30 PER CENT. FOR GOOD COUP!

This is the opportunity of your life. This sale is awe-inspiring and nervy, but nerve is one of our virtues.

A LIVELY TILT.

In Which a Darkey From Maysville Got His Head Smashed Yesterday.

Yesterday afternoon Town Marshal Benz of Maysville and a Negro by the name of Henry Willis, also from Maysville, together with a white man from a distance, got into a dispute in a lower Market street saloon, and the proprietor ordered them out.

They all retired to the sidewalk and renewed the quarrel, when they were ordered away from in front of the place. At this the Negro took exception, used some very ugly language, and was finally taken away by Officer Stockdale more dead than alive, as the saloon proprietor knocked him in the head with his fist.

Officer Thompson took charge of the Maysville officer.

It developed that Willis had stolen a pair of shoes out of Coughlin's stable earlier in the day, that he had served a term at Frankfort and that he is an all round bad fellow.

Willis was arraigned in the Police Court last evening on the charge of petit larceny, and was held in \$100 bond to appear before the Grand Jury.

He had stolen the shoes at Coughlin's stable, placed them in his buggy and went to Wells & Huff's stable, where they were found.

Will meet this evening at G. A. R. Hall, corner Third and Market streets, at 7:30 o'clock. A full attendance is desired. SMON NELSON, M. W. R. H. Wallace, Recorder.

A good show was promised by Manager Fremont, and he more than fulfilled his word. It is no exaggeration to say that the better show for the money was never seen in Maysville. The Kilne children were the bright particular stars. They are clever singers, dancers and finished acrobats. Fort, Stickle's dog circus was amusing and showed to what extent the brute creation can be taught to imitate their masters. Don't fail to see the show or you will always regret it.

BATTLE RESUMED.

Firing Renewed by the Spaniards on the Camps of the Marines at Guantanamo.

OUR MEN RETURNED IT PROMPTLY.

Thirteen Rifles and a Three-Inch Field Gun Was Used and the Spaniards Retired.

The Missing Pickets, After Eighteen Hours' Duty, Return to Camp Safe and Sound—One Man Shot in the Arm and Killed.

OFF UNITED STATES CAMP GUANTANAMO BAY, Sunday June 12, noon. Via Kingston, Jamaica, June 14.—When the dispatch boat Dauntless left Guantanamo Bay early Monday morning, after the 13 hours skirmish between the United States Marines, under Lieut. Col. R. W. Huntington and the Spanish guerrillas and regulars, it was expected that the fighting would be renewed. The Marbled was land-landing reinforcements and nothing had been heard from the advance pickets under Lieut. Wendell C. Neville and Lieut. Melville J. Shaw.

At 9 o'clock the firing was again renewed by the Spaniards, who appeared off the camp on the edge of a small island, about a mile to the northeast. It was promptly returned by 13 rifles and a three-inch field gun and in a short time all signs of the enemy had disappeared. Col. Huntington sent to the landing for a second three-inch gun, which was dragged up the hill and placed in position at the summit. The skirmish lines thrown around the camp kept up a position of sniping, but with not much result to show for it. Meanwhile the Marbled left the harbor and threw a few shells into the woods.

To the great delight of Marines in camp, Lieut. Neville and Shaw, with 80 men of Company D, returned in good shape but much exhausted by 18 hours of picket duty. One man, Sergeant of Company K, had been shot through the abdomen and instantly killed. For most of the day and night Lieut. Neville and Lieut. Shaw had been surrounded by a much superior force, but they had behaved splendidly and, although the firing of the Spaniards was constant and heavy, Lieut. Neville's detachment, lying down, inflicting much more damage than they sustained. At least five Spaniards are known to have been killed, and as Lieut. Neville's men kept up a steady fire throughout the night and the enemy was not at a great distance, it is believed that the Spanish casualties were heavy.

The battle ship Texas arrived Monday morning and sent 100 men, 100 rifles and two automatic Colt guns as reinforcements. The Marbled also sent an antiaircraft detachment. Private Bartholomew McGowan, of Company D, will have been shot was shattered by a bullet. Amputation will be necessary. The Marbled's pilot, who was shot through the leg while guiding the cruiser out of the harbor Monday morning, holds the rank of colonel in the Cuban service.

TRANSPORTS READY.

Gen. Otis Notified That Steamers for the Second Expedition to the Philippines Are Practically Ready.

SAN FRANCISCO, Cal., June 14.—The most important order issued from army headquarters Monday was one notifying Maj. Gen. Otis that the steamers to comprise the second fleet of transports to go to the Philippines was practically ready for the reception of troops. To the number of about 4,000, comprising the 10th Pennsylvania, under Col. Hawkins; 1st Colorado, under Col. Hale; 1st New York, under Col. Brett; two battalions from the 15th and 30th infantry under Col. French, a detachment from the engineer corps and two battalions of Light Infantry under Capt. Rogers began to load their tents and baggage into wagons, down their heavy marching gear and form into columns for the march to the waiting transports.

Whether either of these officers is with the two squadrons named is not yet known at the war department. It was difficult to prevail upon the mounted riflemen to leave their mounts behind, but this was a matter of necessity, it is said, owing to the lack of accommodations for the horses on shipboard.

The best that the department could do at this time in the way of supplying the cavalry contingent for the expedition was to include among the troops one squadron of the 3d United States cavalry fully mounted with 100 officers and 350 enlisted men. The full list of the troops that make up this expedition, as reported to the war department by Gen. Shafter, is as follows:

Infantry regiments—6th, 10th, 71st New York volunteers, 10th, 21st, 22nd, 10th, 9th, 24th, 6th, 22nd, Massachusetts volunteers, 14th, 25th, 12th, 7th, 17th, 3d, 29th regulars.—Total infantry, 361 officers and 10,709 enlisted men.

Cavalry—Two dismounted squadrons of four troops each from the 3d, 6th, 10th, 1st and 10th cavalry and two mounted squadrons of four troops each from the 1st United States volunteer cavalry. Total dismounted cavalry, 139 officers, 2,575 enlisted men; mounted cavalry, one squadron of 10 troops, 9 officers and 289 enlisted men.

Artillery—Light batteries B and K, 1st artillery A and F, 2d artillery, 14 officers and 528 enlisted men. Batteries G and H, 4th artillery, siege, 4 officers and 133 enlisted men.

Engineers—Companies C and E, 9 officers, 300 enlisted men. Signal Corps—One detachment, 30 officers and 46 enlisted men.

Hospital detachments are included in the foregoing figures. The staff corps numbers 15 officers. The grand total of the expedition is 773 officers and 14,564 enlisted men.

Gen. Shafter in his report indicates the great obstacle that had to be overcome in order to embark his force at Porto Tampa, and it is not likely, if his recommendation carries weight, that the effort will be made to again embark so large a number of troops from the coast of Porto Tampa, but the great difficulty of the shipping facilities.

BOAT FOR JACK.

There is at Present No Sign of the Contagion in the Army and Navy.

THERE IS HOWEVER MUCH ANXIETY.

The Most Rigid Precautions Are Being Taken by Our Army and Navy Medical Corps.

Yellow Fever Exists in Santiago de la Vega, Where, Owing to the Terrible Sanitary Condition, This Will Be Remembered When Our Troops Occupy It.

WASHINGTON, June 14.—Surgeon General Sternberg of the army, and Van Ryeppen of the navy, have taken every precaution to protect the army and navy from yellow fever. Up to the present time neither of them has received any reports of contagion in either branch of the service nor do they feel that the greater Cuban ports give ground for serious apprehension, although with our troops and ships operating in a country having yellow fever the year round, there is need of the most rigid precautions by the army and navy medical corps.

In the case of the navy, Dr. Van Ryeppen mapped out a careful plan before the vessels went into Cuban waters. It took into account every fever point in the harbor of Havana and thereabouts. These points are well-known by the sanitary experts being located mainly at the mouths of the rivers which discharge the filth of Havana into the harbor. These points are marked on all naval charts, and care will be taken that our ships keep well clear of these fever spots. Certain warehouses and warehouses along the harbor also are established points for breeding fever and these too are being guarded against. The same precautions are taken at the Cuban ports where our war ships are called into action. In an official bulletin issued recently by the state department it was stated that yellow fever existed at Santiago de Cuba the year round. The fearful unsanitary condition of the city is also pointed out, the bulletin stating that dead cats, dogs, etc., were thrown into the gutters where they remain with the offal and surface sewerage to pollute the atmosphere.

This report has come to the attention of the army and navy medical corps, and has increased the vigilance the authorities are exercising. It was feared at one time that the Spanish authorities might willingly lend themselves to the spread of yellow fever from the city to the Cuban coast, and the possibility of this has been guarded against. For that reason no small craft bearing suspicious goods, such as old clothing, which might contain the germ of the disease, have been seized. Suspicious derelicts of this kind have been sunk rather than take the chances of capturing fever-laden goods.

Surgeon General Sternberg, of the army, issued a general order some time ago giving detailed instructions for guarding against yellow fever and for treating the fever should it occur. The order gives rigid directions for the sanitary arrangement of all camps immediately they are established on Cuban soil. Specific attention is made for the frequent change of clothes for the boiling of all water served the troops, and the fumigation and washing of all exposed garments and material. With our troops actually on Cuban soil these rules will be rigidly enforced by the surgeons accompanying each regiment.

THE BELL SIGNED. The President's signature has been placed on the War Revenue Bill and it is now a Law of the Land.

WASHINGTON, June 14.—The war revenue bill was brought to the white house by a house messenger at 2:45 Monday and was signed by the president at 3:01, and it is now a law.

Immediacy upon receipt of information from the white house that the war revenue bill had been signed by the president, Secretary Alger issued a circular, explaining to the public the proposed bond issue.

A Lying in Great Heat. KAN. GREAT HEAT, Kan., June 14.—In the public square fronting on the principal business street of this city, a murderer was lynched Monday evening by a mob of probably 500 persons. It is estimated that at least 1,000 men of Great Heat's population of 2,500 persons, witnessed the tragedy. The victim was John Becker, a white man, who, on April 28th killed Myrtle Huffmeister, the 16-year-old daughter of William Huffmeister, a farmer lying midway between Great Heat and Ellinwood.

Ambassador Wyman Dies Here. LONDON, June 14.—The United States ambassador here, Col. John Hay, says there is no foundation for the statement that he is responsible for the story published in the "Daily Standard" to the effect that Manila has fallen.
